It is an interesting book! It's more like a novel though.

I was told that it was translated from actual books originated from Lao, but there is no proof to that claim.

Well, I doubt they were able to find actual books from Lao. After all, the country fell a long time ago.

...I will borrow these as well.

Yes??

I didn't thank Lord Rokan would be interested in books like those! What a surprise~!

He's too talkative.

Are these books the whole series?

Yes... oh?

The last volume is missing. Did one of the young masters take it? I will go look for it!

The last volume, where the country falls, is the best part.

It was written so that Issa summon were able to curse an entire nation and kill its people.

Ish about exaggeration. It such a spell existed, I bet half of the entire world would be in ruins by now.

My guess is that it was an internal conflict.

It was a country famous for peaceful monks. I bet they cursed each other to death.

Young master!

Did you...

Ah, there it is.

May I take that book?

Uh.. I didn't take that book.

Did your friend read it?

Why haven't I thought about that before?

All spells originated from seven spells...

What's gotten into him suddenly, I wonder?

I cannot believe this! This is a haunted mill!

There is some dark evil in a mill!

I never thought a stone can emit a lonesome aura.

I have a feeling something terrible is about to happen.

I guess house Latanian isn't going to last long.
